ABOUT ME

Senior Android Developer with 6+ years of experience building scalable, user-centric mobile apps across smart home, industrial, telecom, healthcare, and gaming domains. Skilled in Kotlin, Kotlin Multiplatform Mobile – KMM, Jetpack Compose, MVVM, Clean Architecture, Coroutines/Flow, Retrofit, Room DB, and Dagger/Hilt. Experienced in delivering real-time security workflows, offline-first solutions, performance optimization, API integrations, and production-ready Android features in Agile teams.

SKILLS & PROFICIENCIES

- Languages: Kotlin, Java
- Frameworks :Android SDK, Jetpack Libraries, Jetpack Compose, Kotlin Multiplatform Mobile – KMM
- Architecture: MVVM, Clean Architecture, Modularization, OOPS
- Tools/Libraries: Room DB, LiveData, Retrofit, Dagger/Hilt, Firebase, RxJava, Coroutines & Flow, WebSockets
- Concepts: Offline-first, Scalable Design, UX Optimization, Deep Linking
- Dev Tools: Android Studio, Git, GitHub, Bitbucket

EDUCATIONAL BACKGROUND

KNIT, Sultanpur

May' 2018

Bachelor of Technology (Computer Science and Engineering)

PROJECTS

Live News App- July 2023

Built with Kotlin, Dagger, Coroutines, MVVM.

[GitHub](#)

Monthly Budget Tracker- Aug 2025

Built with Kotlin + Room DB + Jetpack Compose

OPEN SOURCE CONTRIBUTIONS

Mozilla KNIT

2016 to 2017

Collaborated with a team of 3 volunteers to develop event registration application using Android.

WORK HISTORY

Harman Connected Services

Advanced Engineer

November 2025 to Present

Home Residential – Honeywell

- Built and delivered core smart-home security features for the Honeywell Home Residential app using Kotlin, **Kotlin Multiplatform Mobile – KMM**, Jetpack Compose, MVVM/Clean Architecture, Coroutines/Flow, and modular Android architecture.
- Developed end-to-end flows for intrusion alarms, arm/disarm, active alarms, troubles, and live camera streaming, integrating REST APIs, WebSocket event updates, DTO mapping, and UI state management to support real-time home security interactions.

Axiscades

Senior Engineer

September 2023 to May 2025

- Delivered an end-to-end Non-Conformity Tracking solution for Airbus airplane parts with MSAL SSO, Room DB, dynamic JSON-configured forms, text report generation, and robust offline-first support. POC users reported **30% improvement** in NC data collection.
- Developed **QR code-based** POC apps to scan and validate industrial cylinders by integrating backend API responses, aiding asset traceability in factory settings.

Client: Delta Electronics

- Improved TD Drive tool using MVVM, Kotlin, Dagger, and clean code standards which reduced ANRs and improved **user engagement by 12%**
- Resolved BLE visibility issues in Smart Viewer app by **rewriting broken Java logic**, restoring device detection functionality and improving field operability.

OnMobile Global

Software Engineer - Android

April 2020 to June 2023

RBT Caller Tune - (<https://bit.ly/30EUX1g>)

- Migrated **legacy Java code to Kotlin** using MVVM, Room, and Dagger for the RBT SDK used in caller tune apps.
- Designed and shipped "Report a Bug" module that **decreased negative Play Store reviews** and improved customer support.
- Implemented onboarding coach marks, increasing **user signups by 12%**.
- Integrated CleverTap, Firebase, and deep links to optimize user behavior tracking and promotional engagement.

Challenges Arena-

- **Worked** for Flutter-based gaming platform (Challenges Arena) by resolving library conflicts and implementing features resulting in **boosting new user onboarding by 18% and revenue by 6%**.
- Implemented several features such as sign in, localization, leaderboard.

Emproto Technologies

Software Engineer - Android

April 2019 to August 2019

Phable App (<https://phablecare.com>): Smart Health Care App

- Developed Doctor Dissociation feature in Phable Health app using deep linking (Branch.io), MVVM, and Room DB.
- Fixed high-priority bugs and deepened experience with LiveData, Dagger, Retrofit, and two-way data binding.

LS Techies

Software Engineer - Android

July 2018 to Mar 2019

- **Built Attendance feature** for internal communication app "ingroups."
- Gained initial experience with Android UI components and collaborative development.
